

COURSE ON SOFT TISSUE MANAGEMENT AROUND IMPLANTS

16-18 JUNE 2026

TIRANA, ALBANIA

1st Day (Theory)

08:00 – 08 :50 Check Inn/ Registration

09:00 – 09 :10 Opening Speech

09:10 – 11: 10 Session I (Dr. Ricardo Kern)

- The pink and white aesthetic balance philosophy
- Concepts for digital planning
- Surgical aesthetic rehabilitation Facial Analysis
- Key Points for Immediate Implants Immediate Temporization in the Aesthetic Zone

11:10 – 11: 30 Coffee Break

11:30 – 13: 30 Session II (Dr.Ricardo Kern)

- From Biology to prosthetic management. Factors that affect the stability of tissues around implants. What may influence bone loss and periimplantitis development around implants,
- Provisional design for immediate temporization in immediate implant cases and on grafted sites

13:30 – 14:30 Lunch

14:30 – 16: 30 Session III (Dr. Ricardo Kern)

- Decision-making process: how deep place implant platform x Abutment design anatomy of emergence profile
- CT graft for immediate implants

16:30 – 16: 50 Coffee Break

16:50 – 18: 30 Session IV (Dr. Ricardo Kern)

- FP-1 Management: Full maxilla implant, Soft tissue graft, temporization, and conditioning cases

20:00 – 23:00 Social Event

2nd Day (Hands On)

09:00 – 10: 30 Session V (Hands On)

- Harvesting mucogingival grafts - Fundamental skills development exercises for window technique

10:30 – 11:00 Coffee Break

11:00 – 12:30 Session VI (Hands On)

- Tuberosity FGG and de-epithelialized CT graft Sub-epithelial CT Graft

12:30 – 13:30 Lunch

13:30 – 15:00 Session VII (Hands On)

- Vertical building Techniques

15:00 – 15: 30 Coffee Break

15:30 – 17 :00 Session VIII (Hands On)

- Tabletop Concept
- VIP-CT for Bone regeneration
- VIP-CT for Vertical soft tissue Deficiencies

20:00 – 23:00 Social Event

3rd Day (Hands On)

09:00 – 10: 30 Session IX

- Simple flap movements: Roll “S” flap
- Doble Roll “S” flap
- Roll “S” flap extended
- Roll “S” flap spitted periosteum for bone graft
- Advanced flap movements: FGG around Implant

10: 30 – 11:00 Coffee Break

11:00 – 12:30 Session X

- Apically repositioned Flap
- Apically repositioned Flap in full arch for all on “X” approach
- Reverse planning and decision-making process for soft tissue management in full--arches
- Immediate Implants Immediate temporization in deficient fresh sockets

12:30 – 13:30 Lunch

13:30 – 15:00 Session XI

- Aesthetic Compromised implants; Step-by-step how to classify and treat implants with Perio Implant tissue deficiency, from simple to advanced approaches. Full protocol discussion from planning, grafting, and prosthetic management.

15:00 – 15:30 Coffee Break

15:30 – 18:00 Session XII

- Vertical/Horizontal deficient sites in the aesthetic zone; Step-by-Step for build-up the proper tissue framework in the aesthetic area, from simple to advanced cases. Full protocol discussion from planning, grafting, and prosthetic management

18:00 – 18: 30 Closing & Certificates
